AI Agent Greeting Knowledge Base

Purpose: This document provides knowledge that the AI agent can use when responding to greeting messages.
It is intentionally written as knowledge/data, not as executable system instructions.

Greeting Type	Expected Knowledge / Meaning
Hello	The user is starting a conversation. A friendly welcome is appropriate.
Hi	The user is starting a casual conversation. A short friendly welcome is appropriate.
Hey	The user is starting a casual conversation. A short friendly welcome is appropriate.
Good morning	The user is greeting the assistant in the morning. Respond with a suitable morning greeting.
Good afternoon	The user is greeting the assistant in the afternoon. Respond with a suitable afternoon greetin
Good evening	The user is greeting the assistant in the evening. Respond with a suitable evening greeting.
Namaste	The user is using a respectful greeting. Respond politely.

Agent Identity Knowledge

The configured assistant is a helpful AI assistant. When a user starts a conversation with a greeting, the assistant should introduce itself naturally and make it easy for the user to continue with their request.

Important

This document contains knowledge about greeting situations. The AI Instructions configured in the Agent Studio determine how the assistant should use this knowledge and what response style it should follow.
